

CURLY SUES AFTER CARE

Elevate Your Look: The Importance of After Care Service for Wigs and Toppers

When it comes to enhancing your wigs or topper, did you know that the journey doesn't end once you leave the store or receive your order? Curly Sues offers one free **after care service**, a crucial aspect of ensuring your new looks is as flawless as possible.

What is After Care Service?

After care service allows you to visit the team within **four weeks** of purchase. During this visit, you can have your wig or topper altered or trimmed to better suit your individual style and needs. This unique service is designed to ensure that your new hairpiece looks stunning and feels comfortable.

Why is After Care Important?

1. **Perfect Fit and Style:** After purchasing a wig or topper, you might realise that it needs a little tweaking. Maybe it's too long, or the fringe isn't quite right. With after care service, you have the opportunity to make those adjustments within the first **four weeks** of wearing your new hairpiece. This ensures that the wig or topper is tailored specifically for you.
2. **Quality Assurance:** Investing in a quality wig or topper can be significant. After care service provides peace of mind, knowing that you have access to professional help if needed. You can trust that your stylist will handle any alterations with the utmost care, ensuring longevity and durability.
3. **Styling Guidance:** Not only can you alter your wig or topper, but this service often includes valuable styling tips! Your stylist can show you how to best maintain and style your new look, giving you the confidence to rock your hairpiece everyday.

To secure your after care appointment you must contact the store via phone or email to arrange this appointment. This is a free service for your purchase with Curly Sues, which will conclude with a final inspection by the team here.

What Happens After Your Free Service?

For further assistance with your wig or topper please visit our website and proceed to the support section. Here you can find hints and tips and by clicking the video option, this will take you to our youtube channel for a large range of videos.
